

# **A CRM APPLICATION FOR SCHOOL/COLLEGES**

## **1. Introduction:**

### **1.1 Overview**

The project aim is to provide real-time knowledge for all the students who have basic knowledge of Salesforce and Looking for a real-time project. This project will also help those professionals who are in cross-technology and want to switch to Salesforce. With the help of this project they will gain knowledge and can include it into their resume as well.

### **1.2 Purpose**

Using a CRM system provides educational organisation with the data they need to make informed decisions about recruitment, marketing, and other key areas. It also allows you to improve student engagement by tracking student interactions and providing personalised communication

## **2. Problem Definition & Design Thinking**

### **2.1 Empathy Map**

1

## Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we [your problem statement]?

### Key rules of brainstorming

For a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

2

## Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

### TIP

You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

#### Person 1

meetings in offline	communicating people through their language	lack of people interaction
notice on people behaviour		

#### Person 2

distraction of people thoughts	lack of compliments	well defined discipline
irect vision on people command		

#### Person 3

prolating them by contact	A clear reference through carvies	Lack of fulfillment
supports can ensured		

#### Person 4

improve the current strategy	necessary of system update	compared other market efficiency
less demand of the product	low cost and good consume	Developing confident statement among customer

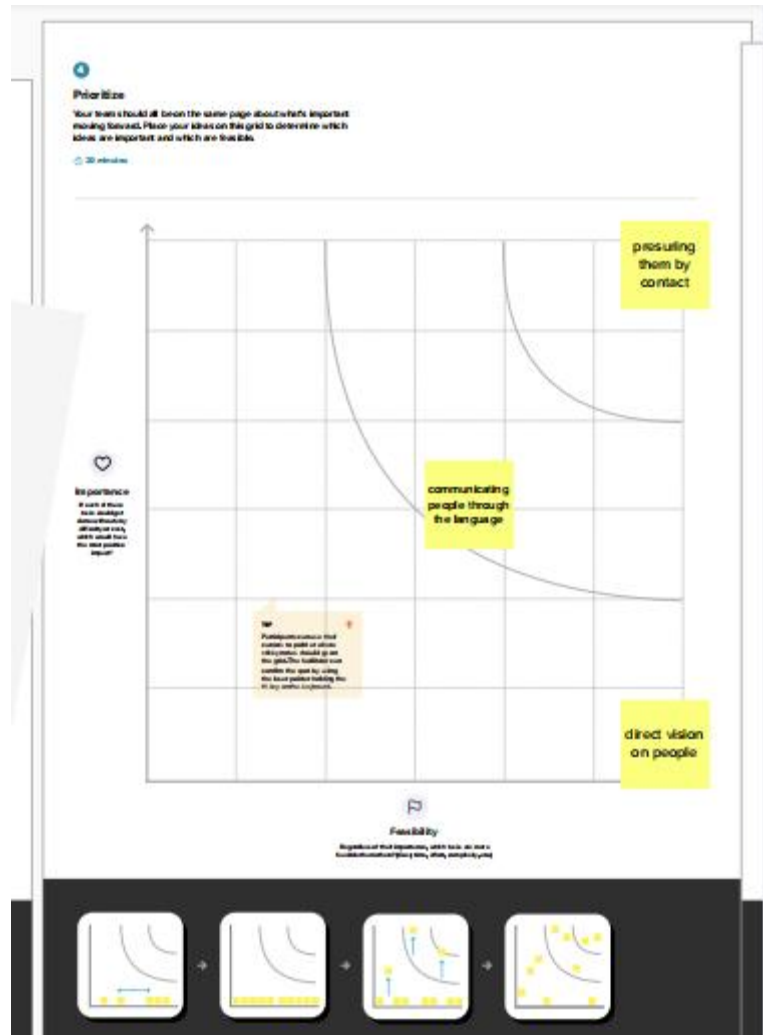

3

### Group ideas

Take time clustering your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. For clusters that are bigger than six sticky notes, try and see if you can break it up into smaller subgroups.

2 Desires

### 3. Result

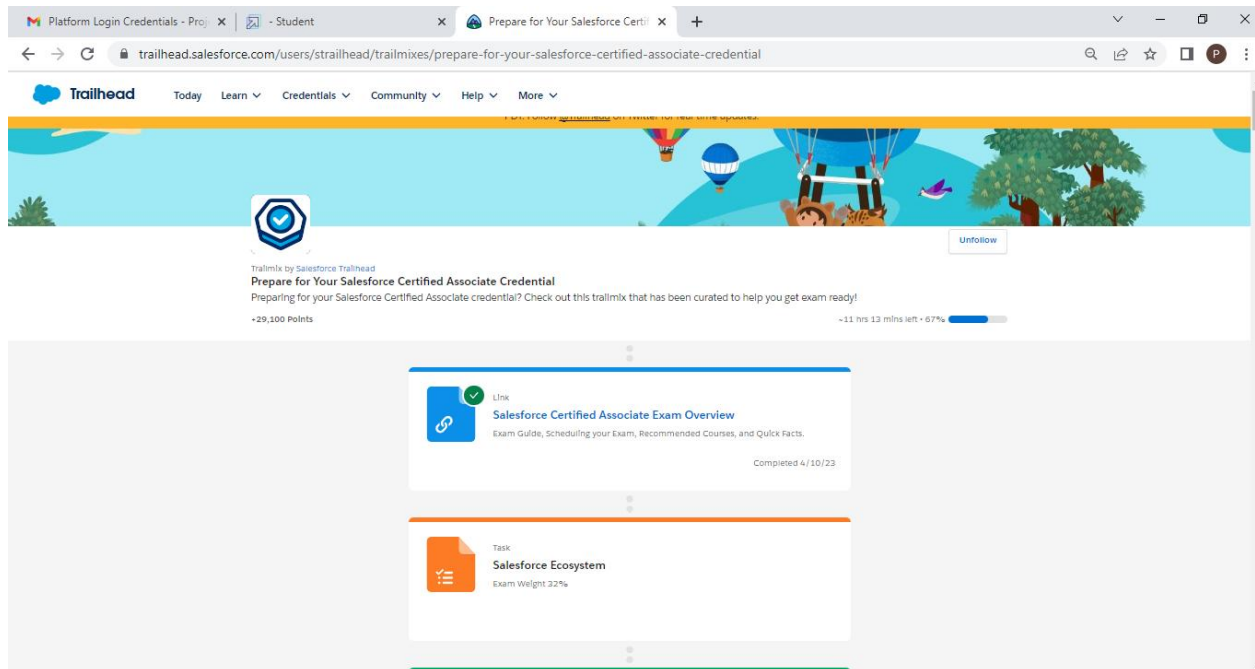

#### 3.1 Data Model

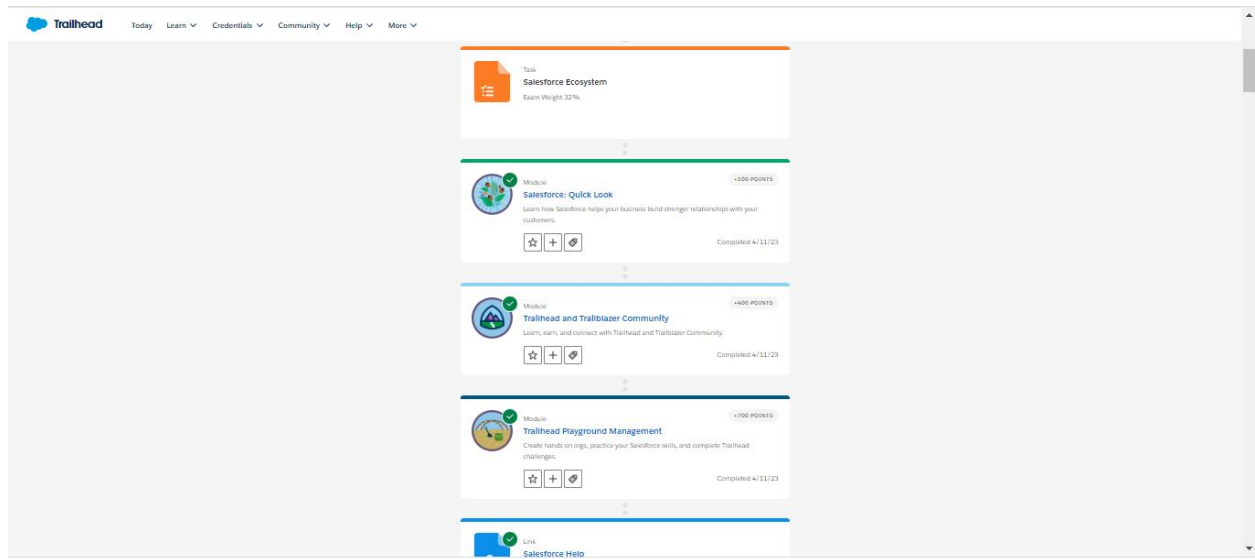

Object	Field label	Data type
School	Address	Text area
	Phone Number	Phone
	Number of Students	Roll-up summary
	Highest mark	Roll-up summary

Student	Phone-Number School Results Class	Phone Master-detail relationship Picklist Number
Parent	Parent Address Parent Address	Text Area Phone

### 3.2 Activity & Screenshot

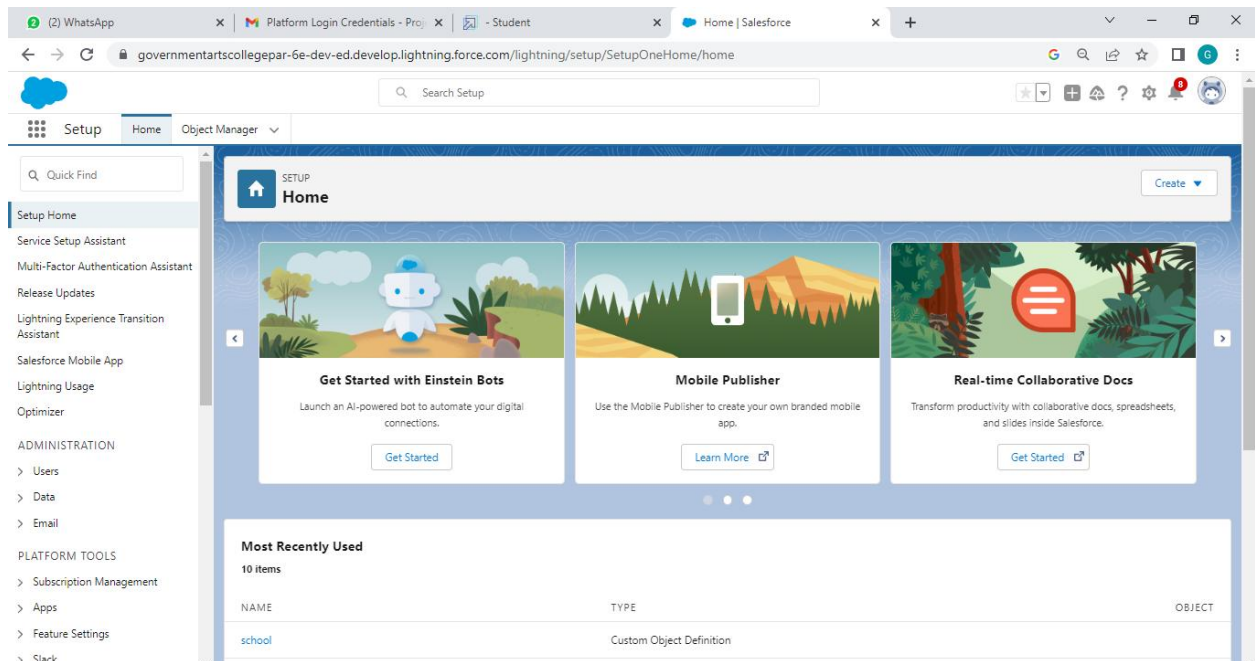

We done empathy map and brain storming and uploaded in Github. Also we done the trailhead badges completion and earn points.

## Milestone 8 – Reports

Team Member 1:

Team member 2-

Team member 3- <https://trailblazer.me/id/pranv17>

#### **4. Advantages & Disadvantages**

##### **Advantages**

- Personalised communication
- Improved enrolments
- Lead management
- Increased revenue
- Automated communication

##### **Disadvantages**

- Record less
- Overhead
- Technical support
- Security issues

#### **5. Applications**

- Banking
- Education
- Insurance and Health care

#### **6. Conclusion**

Salesforce can be used to manage orders from retail stores and distributions, including tracking orders, processing payments, and managing inventory levels.

#### **7. Future Scope**

CRM as a single source of truth, more and deeper automations, customer intelligence is king, keeping customers happy keeps them coming back.
